### Work Experience

IT Director & Digital Marketing — *August 2012 to Present*  
Discover Gymnastics, Houston, TX

- Maintain current technology while finding and acting on opportunities for improvement. Technologies used include:
- Windows Server, Active Directory, Ubuntu Linux and pfSense, Networking, HTML, CSS, PHP, WordPress, Desktop and Server Hardware
- Developed an internal web app using AngularJS and a LAMP stack in a VM to keep records of customers, children, contacts, and account credits.
- Advise on marketing and manage the business's Google AdWords and Facebook Ads accounts.

### Personal Projects

RememberYourUmbrella.com

- Built a PHP web application that uses the Forecast.io and Twilio API's to send text messages to subscribers to bring their umbrellas on days when rain is expected on campus.

pfSense Open Source Contributor

- Altered the pfSense OpenVPN Client Export package to export the entire certificate chain, correcting an issue experienced with pfSense at Discover Gymnastics.

GJX Hosting

- Founded and operate a reseller web hosting business, 2010 to present.
