OBJECTIVE

Seeking acceptance into CodeRED to build software and solve interesting problems.

EDUCATION

Master of Science in Computer Science

August 2016 – May 2018

University of Houston - Houston, Texas

Bachelor of Engineering in Computer Engineering

Graduated in June 2016

University of Mumbai, Mumbai

RELEVANT PROJECTS

Graphical Password and Human Verification System, University of Mumbai, 2015

- Built a library in C++ that provides API for human verification and authenticating users using an image-based password. The library implemented a 2D discretization algorithm known as Centered Discretization. Among the skills learnt and perfected were **teamwork** and **project-management**
- Coded the library functions and classes
- Also presented the project to an external supervisor from the University

SKILLS

Programming Languages	C, C++11, Java, C#
Web Technologies	HTML, CSS, JavaScript, XML, PHP
Databases	MySQL, OLAP
Tools	Visual Studio, NetBeans, Qt Framework
Operating Systems	Windows, Linux
Soft Skills	Teamwork, organizing, project management, communication and business ethics

HONORS

- Awarded **third “Best Project Idea”** in college-level project competition – “Awishkar”
- Presented project in National Level Conference 2016

MEMBERSHIPS

- Member, Association for Computing Machinery, 2015-present

LANGUAGES

Fluent in English, Hindi and Marathi
