## EDUCATION

---

### Tecnológico de Monterrey Campus Monterrey

Graduating in December 2018

*Bachelor of Computer Science*

*Participated in hackathons*

*Currently member of the organizing staff of SISCTI the TI symposium of the university.*

### Prepa Tec Campus Eugenio Garza Lagüera(High School)

Graduated May 2014

*4 Subjects in the International baccalaureate program including Informatics*

## WORK EXPERIENCE

---

### Intosh S.A. de C.V.

Monterrey, Nuevo Leon, México

*Software Engineer Intern*

August 2015 - Present

- Developer of database management systems in Filemaker for companies like Soriana.
- Project deployment assistant and MDM manager.
- Web development.

### El Buen Pastor

Monterrey, Nuevo Leon, México

*Web developer*

Spring 2016

- Integrated a dynamic webpage using Wordpress,html and Css.
- [bit.ly/291ZMUH](http://bit.ly/291ZMUH)

### meci.com.mx

Monterrey, Nuevo Leon, México

*Web development*

Autum 2014

### softitutton.mx

- *I am currently starting a small programming company with two other friends and this year we already sold two database systems to small companies.*
- I have used filemaker to develop a database solution using SQL in scripts to do reports and search queries.

## MAJOR PROJECTS

---

### Event It

2014 - 2016

*A Hackathon iOS app that lets you find events near you, register to them and receive notifications sent by administrators and when entering beacon zones*

- Designed iOS storyboard
- Integrated beacons and actions according to each one of them in the app.
- <https://github.com/miguelbazan/EventIT.git>

### ITCbot

2016

*Developed a bot for facebook messenger directed to the Computer Science career in which you can ask things like: What are my grades?, What are the next events?, Show me computer science events.*

- Worked on the backend using node.js and on the frontend using javascript.

### CarBeacons

2016

*Currently developing app to show details of cars retrieved from a database when approaching to beacons as a personal project.*

- Developed a single view app in swift, built the SQL database where the information is stored and connected the beacons to the app to display information using the EstimoteSDK.
- <https://github.com/miguelc95/IntoshSolucionesSADe13P>

## SKILLS

---

### PROGRAMMING LANGUAGES

4 years: C++  
2 years: Java, Html, Css, Swift, SQL, VBA  
6 months: Python, Node.js, Javascript, PHP

### TECHNOLOGIES

I have been developing iOS apps with database integration using Swift, PHP and SQL. I like creating webpages using HTML, PHP, I know Java from high school and C++ from college and like integrating it to my webpages. Know Scilab, Vba, and currently learning how to use Firebase to integrate it to mobile and web apps.
