## EXPERIENCE

### ~~Pioneer Hi-Bred Int'l Inc, Worthington, Detasseler~~

Summer of 2015, 16

I walked fields, removing the male reproductive portions of designated female rows of corn. I also drove personnel carriers, which entailed managing other detasslers.

## EDUCATION

### ~~University of Washington, Seattle~~ ~~University of St. Petersburg~~

September 2015 - Present

I am currently working toward a bachelor degree, with a double major in Linguistics and Statistics, and an emphasis in Computer Science. I want to join the field of Computational Linguistics

## PROJECTS

### ~~Twitter Word Search~~ ~~Twitter Word Search~~

The program tweeted images of generated wordsearches, embedded with a poem written by my former classmate, Julian Epp  
(<https://github.com/V-Neck/TwitterWS>)

### ~~Triangles Are Bad~~ ~~Triangles Are Bad Kit~~

A very simple game I cowrote with a classmate, Jerry Clayton, available on the App Store and Android Market ([bit.ly/1LQrdOM](http://bit.ly/1LQrdOM))

### ~~Cannibals~~ ~~Cannibals~~

This is a research project investigating the classic "Cannibals and missionaries" puzzle. It solves the puzzle recursively, using different starting criteria.

### ~~BEAM~~ ~~BEAM~~

This is a puzzle game based on ordering colors by "swapping" them. Sort of a challenging reversal of the classic "Fisher-Yates" algorithm.

## SKILLS
