EXPERIENCE

ITIL Intern

June 2016 – August 2016

McKesson – Specialty Health, Woodlands, Texas

- Created a process to audit the 350 Remedyforce Staff licenses administered to employees
- Educated employees on how to create reports and dashboards within Remedyforce
- Verified the accuracy of all custom objects in Remedyforce and edited logic if incorrect

Associate Consultant

June 2015 –April 2016

Amerishore, Houston, Texas

- Appointed the Team-Lead for an 8 person team consisting of university students
- Implemented new procedures to increase collaboration and ensure tasks weren't forgotten
- Exposed to different QA practices such as testing and creating unit tests

Resident Advisor

University of Houston

August 2015 – Present

- Develop personal relationships with residents to better connect them to campus resources
- Collaborated with other RAs to plan and manage events to help build community
- Resolved issues ranging from roommate disagreements to sexual harassment

SKILLS – SQL, JAVASCRIPT, APEX, VB, currently learning (Ruby on Rails, C#, ASP.Net)

SCHOOL PROJECTS

Halliburton User Experience (GenB)
2014

Fall

- Collected research on the positive effects of enhancing a user's experience with software
- Learned about the process of enhancing the UX of a company
- Prepared and delivered a power point to the IT staff at Halliburton

Boston Housing Analysis (STAT 3331)

Spring 2015

- Determined the best variables to accurately estimate the value of a home in Boston
- Utilized an Excel add-on to analyze over 500 rows of data to identify variables
- Verified variables by inputting data into a regression equation to display their accuracy
