

PERSONAL STATEMENT

I'm a 19 year old programmer. A passionate student who is always willing to go the extra mile in order to make a difference in my surroundings. I am eager to learn and understand how stuff works and apply knowledge to my daily life. I consider myself a team player and a leader, I am able to communicate my ideas efficiently with others.

I am interested in artificial intelligence, machine learning and big data. Creating tools to solve everyday problems.

I believe in doing what you love and whatever makes you feel accomplished,

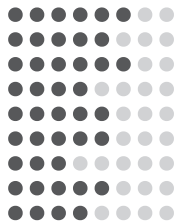

Major School Projects

- From January 2016 to May 2016.
Restaurant Management System
Made in Java using Swing, the user was able to add food to their order, showed the amount to pay and had inventory to show when some food was not available.
- From August 2015 to December 2015.
Team Management System
Managment for the members of the Robotics Team, the user was able to search current members, add them, remove them and send emails to the members.
- From January 2015 to May 2015.
Navigation device for blind people
Using arduino and ultrasonic sensors. The user wear a belt and whenever it detects there's something in the way it vibrates to indicate change of direction.

SKILLS

01 Computer

Java - 3 years
C/C++ - 3 years
Python - 4 years
Ruby - 1 year
Bash - 2 yaers
ZenDesk
Slack
Git - 1 year
Arduino - 2 years

02 Softskills

Leadership
Management
Critical Thinking
Public Speaking
Emotional Intelligence
Teamwork
Logical Thinking

EDUCATION

- From August 2015 to December 2019.
Computer Science
Instituto Tecnológico y de Estudios Superiores de Monterrey Campus Monterrey
90/100

WORK EXPERIENCE

- 1 Since June 2016
Global Technical IT Support
AIESEC
Give technical support to a platform with more than 1 million users using ZenDesk

AWARDS & LEADERSHIP

Honors
Finished a semester with a GPA above 95/100 twice
Instituto Tecnológico y de Estudios Superiores de Monterrey Campus Estado de México

I am part of **AIESEC**, the largest youth-run organisation in the world. This organisation develops leaders using its Leadership Development Model which consists of 4 aspects: Empowering Others, World Citizen, Self Aware and Solution Oriented. Here I've had the opportunity to challenge myself by being part of the National Support Team and now in the Global Support Team. Here I learned that I have a greater purpose than I thought and that I can really make a difference in other people's lives.

I was part of ITESM CEM's robotics team which competes in the organisation FIRST that promotes science and technology among the young. I was both in the programming and the business division, complementing my experience.
