5910 Spring Lodge Dr. • Kingwood TX 77345 • Phone: 281.608.5233 • E-Mail: addimop@gmail.com

## Personal Statement

I'm a motivated, hardworking, ambitious student with excellent time management skills. I'm strong in maths and physics and am now pursuing a bachelor's degree in engineering at Texas A&M University after successfully gaining an International Baccalaureate Diploma. I am currently seeking opportunities in the engineering field in order to gain hands-on experience with engineering projects and working as part of a team in a business environment.

## Education

St. Mary Magdalene Academy

2014 -2016

Received an International Baccalaureate (IB) Diploma from a UK school with a total of 37 points (including 3 core points)

- Maths: Higher Level- 5
- Chemistry: Higher Level- 5
- Physics: Higher Level- 5
- Economics: Standard Level- 7
- English: Standard Level- 6
- Spanish: Standard Level- 6

Home Educated

2004-2014

Studied under the American school system until 2014. Subjects included Maths, English, Latin, Chemistry, and Biology and achieved a 3.6 (out of 4.0) GPA overall.

## Experience

Homework Club

October 2014 - June 2015

Assisted primary school children with maths homework once a week.

Child Care

May 2014 - July 2014

Helped run a child care for 1-3 year olds at Christ Church Fulham.

## Activities

- Deutsche Bank Financial Times Reading Group - October 2015 - May 2015
- UCL After School Engineering Club - January 2015 - February 2015
- University of Cambridge Chemistry Masterclass - March 2015
- Ogden Trust School Physicist of the Year- May 2015

## Skills

- Moderate knowledge of Word, PowerPoint, and Excel, Exposure to Python
- Ability to teach & explain mathematical concepts

## Letter of Reference:

My name is Jesse Haines and I am a pricing and product development actuary at Partnership Assurance, a London-based life insurance company.

For two weeks in July 2015 Addison joined our Actuarial Pricing team as an intern. While she was here she made a real contribution, completing several pieces of research and analysis work for us. She picked things up very quickly and the standard of the work she produced was very high. She is clearly very intelligent and mathematically competent. However the most impressive thing about Addison was that in addition to her technical competence she also has very strong soft skills. She is very personable, a natural communicator, and highly motivated to get involved and contribute.

Overall I would say Addison is the best intern I've had and it was a pleasure to have her as part of the team.

Regards,  
Jesse Haines
