#####

=====

I ask these questions to myself every day:

How far can you see?

How big can you think?

And most importantly, how far will you go for yourself?

Experience

Software Engineer at Google

February 2016 - Present

G is for Google!

Google's mission is to organize the world's information and make it universally accessible and useful.

Google is not a conventional company. We do not intend to become one.
