

Jeonggyu Lee

WE'RE HIRING! Software Engineer 2 at Microsoft

Summary

I am a well-rounded Software Engineer with 5+ years of experience from startup to Fortune 50. Specifically I have experience working in Open-Source, Video Gaming, Commercial Scientific Software, Internal Research Tools and Web Development.

In my spare time I enjoy developing my hobby projects and contributing to open source projects. Some are available at:

-

Experience

Software Engineer 2 at Microsoft

April 2015 - Present

WE ARE HIRING!!!

The Microsoft Cloud Infrastructure and Operations (MCIO) group is an exciting and fast evolving engineering group within Microsoft. MCIO's mission is to optimize and deliver industry leading cloud infrastructure and foundational technologies for Microsoft's online services. The organization is responsible for strategy and delivery of the foundational platform for all Microsoft Online Services including demand and capacity forecasting, supply chain, data centers, networking, bandwidth, operations, and incident management. MCIO supports over 200 online businesses including Bing, O365, OneDrive, Xbox and Windows Azure branded services.
