Skills and Abilities

- Continued and improving knowledge and understanding of programming in Python.
- Learning to fully program in C++ as a Computer Science major by 2018.
- CFA Level 1 Candidate – June 2017 Exam Date.

Relevant Work Experience

University of Houston

IT Student Worker

Houston, Texas

(Jun 2016-current)

- Focus on software installation and desktop rebuilds. Manually configure and customize software programs to make computers run more efficiently. Installing computer units to optimize computer performance.

Tower Hill Trading

New/Developing Equity Trader

Houston, Texas

(Dec 2013-May 2015)

- Saved and archived my best strategies, which I hope to convert into an automated system through the use of software programs such as C++, Python, etc.
- Discretionary and unconventional strategy: Candlestick analysis, price action analysis, and order flow techniques.
- Thrive in a team environment; and have effective networking skills. Adapt quickly and can prioritize in a fast-paced and dynamic work environment.

West Texas A&M University, College of Business

Portfolio Manager

Canyon, Texas

(May 2012-Sept 2013)

- Selected as 1 of 5 College of Business students out of 1,184 for establishing an investment strategy.
- Read reports and researched industry and economic trends looking for the right company and time to invest the portfolio's capital, while balancing risk against performance
- AUM totaled \$1.5M, where I personally managed 30 percent of the entire portfolio.

Bell Helicopter, Textron Inc.

Contractor

Amarillo, Texas

(Nov 2012-May 2013)

- Administered 7-10 complex subcontracts per day by executing standard purchasing procedures within an assigned commodity to ensure the timely delivery of supplies and materials.
- Purchase order management, competitive pricing adherence, inventory analysis, new supplier qualification and negotiation of long term agreements.

Honors Achievements

- Ronald E. McNair Scholar (2011)
- Omicron Delta Epsilon (2011)
