### WORK EXPERIENCE

#### Software Engineer

Pierry Inc - July 2016 to Present

Worked with clients to meet marketing campaign needs. Developed a connector app that connect Salesforce Marketing Cloud with Magento E-Commerce website in addition to another connector app that connects Line with Salesforce Marketing Cloud and Salesforce Mobile Connect.

#### (contracted) - Email Marketing Specialist

Uber Inc. - July 2016 to October 2016

Developed and deployed Marketing Emails on a daily basis. Worked with project managers and CRM managers to create Uber's promotional emails for drivers and riders.

#### Software QA Intern

Pierry Software - May 2016 to July 2016

Tested websites, deployed Wordpress modules, and developed front end webpages for two websites. Helped research and develop connector apps into Salesforce for email marketing campaigns.

#### Web Development Immersive Student

General Assembly - November 2015 to February 2016

Completed a twelve week course building and developing projects collaboratively and individually using various programming languages, libraries and frameworks. Fostered an eagerness to learn quickly while growing a knowledge base of up-to-date programming languages

websites/applications / projects:

Clover website

Developed, deployed and tested all front end webpages. Worked with client to find solutions and helped implement them in a timely manner.

MajorCraft website

Tested and helped deploy this website as a member of the development team. Responsibilities include researching and deploying WordPress modules and themes.

Gotta cache 'em all - Heroku | Github

This app uses QR codes for a geocaching scavenger hunt type game.

Took on project manager role and guided the development process with the other developers on the team

Developed the view pages for the app and styled the whole application

This was developed using Ruby, Ruby on rails, HTML/CSS/SaSS, Bootstrap, jQuery, Google maps API
