

Dylan Fahr

Student Assistant at Sam Houston State University Online

dylfahr@gmail.com

Summary

I am an all around honest, hard worker. I am a natural born team worker and leader, regardless of how difficult the situation or task may be, I always take charge and play ball. I am dependable, reliable, honest, hardworking, always on time, intelligent, tech savvy, truthful, caring, etc. If you need a hard worker with an education and great track record for customer service, then I am your man!

Experience

Student Assistant at Sam Houston State University Online

February 2015 - Present (1 year 9 months)

I am in charge of monitoring and creating ITV (live stream sessions) between classrooms from the Woodlands and the Huntsville Campuses. I also help with graphic art work, campus recruiting, and coding the Sam Houston Graduate Catalog for 2015-2016 sites, as well as the coding of various classroom applications and games. In coding in particular, I use; Java, html, C#, css, jQuery, and a bit of JavaScript. I am looking forward to building my experience with computer science, through this job and all by eventually doing some work for the IT department soon.

AT Lab Assistant at Lone Star College

October 2013 - May 2014 (8 months)

I provide technical assistance to disabled students at Lone Star College System. With the technology services I provide, the disabled student are able to become more efficient for their work and are able to handle their courses better. I handle with various computer software, hardware, applications, electronics, etc.

Scribe at Lone Star College

August 2013 - December 2013 (5 months)

I provided handwritten notes to disabled students regarding their classwork, homework, and various tips to help understand the material in the classroom.

Teacher's Assistant at Kumon

August 2013 - September 2013 (2 months)

I worked with the main teacher, with tutoring the students, ranging from kindergarten to 12th grade, grading various papers and filing them, and by maintaining a well organized and clean work environment.

Receptionist at Great Clips

October 2012 - February 2013 (5 months)

I maintained and worked with a data entry system through a touch screen computer. Within the data entry system, I was in charge of maintaining and entering in customer information and payment data. Additionally, I kept the overall work environment clean and safe, as well as offering my services as the company's mascot for two various local fundraisers/ events.

Cashier at Safeway

July 2011 - September 2012 (1 year 3 months)

I provided excellent customer service and rapport, while maintaining a clean and well organized work environment. I checkout daily customers and kept up customer service and rapport to new limits each time. I worked greatly with others and alone, as well as a substitute in various other positions around the grocery store. I worked with and maintained a cash register system. Additionally I received several awards and two raises from the corporate offices, for my work and excellent customer service.

Concessionist at Cinemark

December 2010 - July 2011 (8 months)

I provided excellent customer service and rapport, maintained a clean and well organized work environment. I sold various theater goods such as food and drinks. I received an award and raise for my exceptional customer service as a concessionist. I worked with a touch screen cash register.

Interests

Working with software and hardware of various kinds. Building my programming skills as well as my knowledge of network security and information assurance. Great interest in digital forensics and cyber security. Have a keen interest/ specialty with c# and html programming, as well as Java.

Projects

Classroom Videogame Demo (incomplete)

March 2015 to Present

Members:Dylan Fahr

I created a simulation on the basis of other classroom applications will be built upon. In the game/ simulation, the user moves in first person and is able to pull up a menu of items and is able to select the item from the menu, drag and drop it, and move the item where they want it to be. Currently I am stuck on generating an item that is a different member of the array, instead of the first.

SHSU Graduate Catalog 2015-2016

April 2015 to May 2015

Members:Dylan Fahr

Creation of various department and degree pages for the various departments/ schools in the new graduate catalog for 2015- 2016.

(Not yet released on the SHSU.edu site yet).

I created/ coded, and designed these pages independently.
