

TRISTAN WILEY

FULL STACK DEVELOPER

I started programming in Java for Android, and as I progressed, I expanded into web design, and eventually, full stack. I've worked with a variety of frameworks and languages. While I find my experience grows the most at Hackathons, I strive to always be learning and growing.

ACHIEVEMENTS

Academic Excellence in Video Game Development

Outstanding Effort in Yearbook and Editor of 2015-16 Yearbook

Recognition for innovative use of Firebase at MHacks 6.
