---

## Summary:

Ambitious and hardworking student. Passionate about learning new concepts and ideas and gaining new experiences to further my professional development in a career in the computer science field.

## Education:

University of Texas Rio Grande Valley  
August 2016 – May 2018  
Major: Computer Science

Texas A&M University  
August 2007 - May 2010  
Major: Physics  
Texas A&M University Physics Department Dean's List - Fall 2009

## Work Experience:

### Galvotec Alloys, Inc.

McAllen, TX

Quality Control Laboratory Technician

Jun. 2013 – Aug. 2016

- Received inspectors and representatives from customers such as Shell and Pemex and certification bodies such as A2LA for ISO 17025 in regards to lab operations at Galvotec Alloys.
- Kept familiar with industry standards and customer specifications in order to perform tests as per order requirements
- Essential part of a team in producing a more efficient operating laboratory
- Kept accurate track of sample inventory for tests required in the production of company's sacrificial anodes
- Responsible for the maintenance of analytical accuracy of the optical emission spectrometer used for the chemical analysis of cast aluminum and zinc alloys
- Accurate data entry of test results into database for company use and reference

### Land Investigation Services

McAllen, TX

Abstractor

Jun. 2010 – Jun. 2013

- Researched and abstracted title history on properties to obtain a complete perspective on past transactions of a property
- Compiled information from legal documents such as deeds, deed of trusts, easements, etc., into a concise report summary that states timeline of ownership history of various properties
- Mapped metes and bounds descriptions of properties in various CAD programs such as AutoCAD
- Prepared invoices for clients that detailed work completed
- Rooted out inefficiencies within the company to increase productivity and reduce timeframes of pending contracts
