SUMMARY

I am an entrepreneurial freshman looking for a software development summer internship in 2017.
I have a passion for Android OS development, Android app development, and iOS app development.

EDUCATION

Bachelor of Science in Computer Science

Expected – May 2020

Georgia Institute of Technology - Atlanta, USA

GPA: 4.0

- QuestBridge Scholar – High achieving minority students
- Intel RISE Scholar – Retaining Inspirational Students in Technology and Engineering

EXPERIENCE

ExoticFleek – Online Apparel Store

July 2015 – September 2016

(Founder and CEO)

- Brought on two volunteers and a cofounder to help with social media load
- Made \$26,000 in revenue selling cultural apparel to mainly women aged 18 to 30
- Identified and handled relations with manufacturers overseas (Hong Kong, India, etc)
- Managed Shopify website and social media accounts (Pinterest, Polyvore, Instagram, etc)

Shane's Electronic Repair Service

January 2014 – June 2016

(Founder and CEO)

- Handled delivery and customer relations
- Fixed laptops, desktops, phones, and tablets
- Made \$5,000 in profit fixing electronics part time
- Hired two classmates to expand service and lower repair time

Mobile App Developer

June 2014 – Present

(iOS and Android Projects)

- Developed a note taking app and a recreation of the Uber app for iOS
- Developed a calculator app and a homescreen/launcher app for Android
- Developed a recreation of Facebook Messenger's floating chat head feature on Android
- Created a custom recreation of Flappy Bird using libGDX, ran on iOS, Android, and Desktop.
- Developing a lock screen app that allows multiple password that customize one's Android phone

Android Operating System Development

January 2012 – March 2013

(Operating System Developer for Large Online Community)

- Developed a prototype Android ROM for the HTC EVO V 4G
- Ported a custom Android ROM called MIUI to the Motorola Triumph
- Developed an Android kernel based on the stock Kernel that came with the Motorola Triumph
- Developed multiple Android ROMs built on the stock ROM that came with the Motorola Triumph

SKILLS/CERTIFICATES

- Programming and Markup Languages: Java, Swift, and XML
- Certificates: Microsoft Technical Associate
- Libraries/SDKs: libGDX and Android OS

ACTIVITIES

(2016 - 2017)

- Hackathons: HackGT, Hack Riddle, HackGSU, HackNC, HackUGA
- Clubs: GT iOS Club (iOS app development club), GITMAD (Android app development club)
