

Wasim Wadhwani

Cybersecurity Consultant at PwC

wasim.wadhwani@pwc.com

Summary

Wasim Wadhwani is a full time cyber security consultant with PricewaterhouseCoopers (pwc) and focuses on identity and access management solutions. He is also studying full time at Sam Houston State University for a MS in information security and assurance to further his passion and technical expertise in the cyber security field.

Experience

Cybersecurity Associate at PwC

August 2015 - Present (1 year 3 months)

Student Leader - Help Desk Central at Texas A&M University

November 2012 - May 2015 (2 years 7 months)

Offer services to students and faculty of the Texas A&M University system in fields of virus/spyware removal, data recovery and backup, OS installations, hard drive and memory installations, and general tech support with mobile devices and laptops. As well as supporting accounts for faculty and students throughout the university system.

Setup Configuration Intern at Aon Hewitt

June 2014 - August 2014 (3 months)

My responsibilities include executing test plans created by the systems analysts by identifying and creating test participants within the proprietary Total Benefits Administration (TBA) software and performing calculations for expected results, documenting any defects in the system when the actual results do not meet the required criterion, writing SQL queries in DB2 SQL and retrieving data on required participant population, generating reports using the found data to be sent to the client team requesting it.

Teacher at The Study Center

July 2012 - August 2012 (2 months)

Instructed a class of elementary to middle school students 3D Modeling using Blender, Game Design using Multimedia Fusion 2, and Stop-Motion Film using Pinnacle Studios.

Co-Founder at PhoneFixNMore.com

November 2011 - June 2012 (8 months)

Maintained website

Tracked and ordered inventory

Performed diagnostics and repairs on smartphones (i.e., Apple iPhones, Android devices)

Teacher at The Study Center

July 2011 - August 2011 (2 months)

Instructed a class of elementary to middle school students 3D Modeling using Blender, Game Design using Multimedia Fusion 2, and Stop-Motion Film using Pinnacle Studios
