---

SKILLS & EXPERTISE

- Small grasp of general programming concepts
- Regularly programs in Java.
- Used to program in Python.

EXPERIENCE

Aug '14 – June '15
10 months

Took Beginner Computer Science Course in High School

- Learned python
- Understood various basic programming concepts(loops, condition statements,etc).

Aug '15 – June '16
10 months

Took AP Computer Science in High School
- Learned Java
- Had a deeper dive into programming concepts and started to learn to crack algorithms.

TECHNICAL SKILLS

- Java
- Python

EDUCATION

- Senior year in High school

*Does programming in his free time
*Takes Harvard's CS50's course via edX.org
*Has a GitHub page to demonstrate programming skills and progress in learning.
*Will be my first Hackathon.
