Behdad Esfahbod

Software Engineer at Google

Summary

Resume at http://behdad.org/be-resume.pdf

Specialties: Internationalization, text rendering, software maintenance.

Experience

Staff Software Engineer at Google

July 2010 - Present

  I am part of the internationalization team (formerly I was on the ChromeOS team), doing what I'm good at,
   which is to deal with fonts and text rendering and Unicode... Very exciting.
