Summer learning opportunities

Moving Pictures, University of Houston Main Campus
    Pre-college summer enrichment program in which I learned filming fundamentals and created short films which were shown at a premier. (June-July 2015)

Computer Science Summer Institute, Google Inc.
    Participated in an intensive 3 week programming institute where Google engineers taught participants how to develop web apps in HTML, CSS, Javascript, Python and Google AppEngine. Through the creation of various small projects I used HTML, CSS, JavaScript and python and created an interactive website which recommends outfits according to the weather. (July-August 2015)
