NEEL SARWAL
DEVELOPER | ENTREPRENEUR

I am passionate about designing and developing software solutions that solve complex problems. I am currently a high school sophomore who will receive 2 associate degress (over 80 college credits) by graduation, while developing apps and software. I pursue challenges, and will develop software that will leave its mark on the world. The best way to predict the future is by creating it.

EXPERIENCE

CO-FOUNDER, LEAD DEV
PeerLink
Swift, Node.js
Plano, TX

2015 - Present
- Developed a peer-to-peer tutoring service via mobile app that provides access to higher quality tutoring.
- Responsibilities include: iOS development, market testing, front-end web development, and Parse servers.

FOUNDER, CEO
SmartArms
