|---|---|---|
| **Calculus 1** | **Computer Programming 1 and 2** | **Mathematical Foundations of CS** |
| **Data Structures** | **Discrete Mathematics** | **Analysis of Algorithms** |
| **Computer Organization** | **Systems Programming** | **Application Programming** |
| **Operating Systems** | **Principles of Computer Info. Security** | **Programming Languages** |
| **Software Engineering** | | |

## Skills & Abilities

**TECHNOLOGY SUMMARY**

· Programming experience in: **Java, C, Perl, Sed, Awk, MATLAB, Unix Environment**

· Minor experience in XOR Encryption/Decryption and password cracking with John the Ripper

· Extensive experience using Microsoft Word, Excel, Publisher, and Power Point

· Minor experience using Virtual Machines, Adobe Illustrator, Photoshop, and InDesign.

## Experience

**CS TUTOR | UTSA | JANUARY 2016 TO PRESENT**

· Offered supplemental instruction to students, with a strong emphasis on providing academic assistance to students with limited to no coding background.

· Needed to be able to present information to a group of people in a semi-formal setting, using a white board.

**SALES REPRISENTATIVE | JOSTENS | AUGUST 2010 TO JULY 2016**

· Ensured client satisfaction with services provided by the company, from jewelry quality to verifying that correct information was utilized on Diplomas.

· Managed and assigned different employees based on skillset and availability while at Jostens. Worked in a cooperative team environment to ensure that everyone played to their strengths during group projects.

· Created and maintained the website utilized by customers to order items online, or check for their delivery dates. All graphics needed to be created by hand, done with Adobe Illustrator.

**ACTIVITIES**

· Chairman of Event Organization – ACM UTSA (2015-2016): Duties included creating the monthly event for members to attend and "unwind" during the stressful semester.
